25X1

General Cabell:

Noted in the near future [redacted] will attend a conference at the University of Wisconsin. The purpose of this meeting is to discuss ways and means of BW detection.

25X1

Mr. Wisner:

Briefly reported on a meeting he had attended regarding the proposed U. S. expedition to the Antarctic, and stated the Navy was strongly against this expedition. The Director said he felt this whole problem was a matter for consideration by the OCB, since it transcends interest of any one department or agency, and stated since it is apparent that the funding is causing major difficulty, he intends to raise the problem at the next OCB Meeting and suggest that each department and agency having a direct interest bear a proportionate share of the expenses.
